Louisiana Cultural Districts

This document provides an overview of the Louisiana Cultural Districts Program. What is a Cultural District?

A "Cultural District," defined by law, is a district designated by a Local Governing Authority (LGA) for the purpose of revitalizing a community by creating a hub of cultural activity, by offering communities opportunities to create or rebuild cultural destinations.

A Louisiana Cultural District must:

- Be geographically contiguous
- Be distinguished by cultural resources that play a vital role in the life and cultural development of a community
- Focus on an existing cultural anchor such as a major art institution, art and entertainment businesses, an area or business with arts and cultural activities or cultural or artisan production Be engaged in the promotion, preservation, and educational aspects of the arts and culture of the locale
- Contribute to the public through interpretive and educational uses
- Encourage opportunity for affordable artist housing and work space
- Complete annual reports and business listings

Cultural Districts should be a unique reflection of local heritage, history, and cultural development. Many are found in downtown areas, but they can be in suburban, rural, and neighborhood locations. Americans for the Arts define Cultural Districts as “a well-recognized, labeled, mixed-use area of the city in which a high concentration of arts and cultural facilities serve as the anchor attraction.”

Cultural industries are recognized as one of the leading economic clusters in the Louisiana economy. The cultural cluster includes the following industries:

- Visual arts (painting, sculpture, photography)
- Preservation (historic preservation of buildings and structures)
- Film and digital media (film festivals, local documentaries)
- Music and performing arts (live music/performance venues, classes, dance studios)
- Literary arts and humanities (book readings and signings, story-telling, folklore)

Size is an important consideration for a Cultural District. A Cultural District should:

- Contain a variety of structures, residents, businesses, organizations, spaces, and experiences to support and stimulate cultural economic activity
- Have sufficient property owners taking advantage of state historic tax credits

and/or art vendors who represent the cultural and artistic significance of the area.

- **Consider existing National Register, local historic districts, Downtown Development Districts, and Main Street boundaries**
- Be small enough to develop a sense of identity and community among the residents, businesses, and organizations to attract and stimulate a recognizable hub of cultural activity
- Be reasonably compact and small enough for accessible pedestrian traffic
- Be small enough that the district can be managed and reported on, and tax credits do not become a burdensome loss of revenue to the government

Eligibility

Who May Apply

Any municipal or parish government in the state may designate a specific geographic area and apply for that area to become a Cultural District. A Local Governing Authority (LGA) may delegate its authority, but not its responsibility, to complete the application and comply with all administrative and reporting requirements.

Certifying Authority

A committee organized by the Louisiana Division of the Arts (LDOA) determines if an application conforms to the requirements and meets the criteria established by law, set forth in the rules, and described in these guidelines.

Application Assistance

The LDOA will provide information to assist the LGA, residents, and businesses, with a Cultural District application and to understand the benefits and responsibilities upon request.

Proposed Cultural District applications are evaluated to determine whether they currently meet the following mandatory criteria, or have the strong potential to do so in the future.
