

National Register Eligibility Evaluation

Section 106 Review Consultation, Hurricane Katrina
Redeemer High School, 1453 Crescent Street, New Orleans, Louisiana 70122
Applicant: Roman Catholic Church/ Archdiocese of New Orleans

Redeemer High School complex consists of five International style buildings circa 1961.

The three classroom buildings all sit on concrete slabs. They are each two story with a rectangular in floor plan with the exception of a mechanical wing on the northern classroom building. The exteriors are clad in brick veneer and blue composite siding. The windows are aluminum and covered in a horizontal sunshade which extends the length of the building. The square glass entryways are located on the west side and accessed by a breezeway that connects the three buildings. The roofs are front gabled with asphalt shingles.

The gymnasium sits on a concrete slab. It is one story and clad in brick veneer with embedded concrete structural columns. The windows are fixed aluminum with four panes and located near the top of the building. The building is accessible through an entry on the west side and is connected to one of the classroom buildings by a breezeway. The roof is front gabled with asphalt shingles.

The cafeteria sits on a concrete slab. It is one story clad in brick veneer and blue composite siding. The windows are fixed aluminum with three panes. The building is accessible through the west side and is connected to the classroom buildings by a breezeway. The roof is flat with asphalt shingles.

The campus does not meet the age threshold, nor does it possess the level of exceptional importance required by criteria consideration G of the National Register guidelines to be considered eligible for the National Register of Historic Places.
